OFICINA TÉCNICA DE ESTUDIOS Y CONTROL DE OBRAS, S.A.
C/ Sepúlveda, 6. 28108-Alcobendas, Madrid. SPAIN.
T: (34) 91 535 22 10 | ofiteco@ofiteco.com

OFICINA TÉCNICA DE ESTUDIOS Y CONTROL DE OBRAS, S.A. (OFITECO) is a Spanish engineering company founded in **1971**, due to the growing concern about dam and reservoir safety in the country.

The main **FIELDS OF ACTIVITY** comprise hydraulic and transport infrastructures.

HYDRAULIC INFRASTRUCTURES include dams and reservoirs, hydrometeorological networks, flood management, hydropower, water supply, wastewater treatment plants, irrigation, or river restoration.

TRANSPORT INFRASTRUCTURES involve roads and highways, railways, high-speed rail and underground lines. Tunnel, viaduct and hillside inspections and monitoring must also be highlighted.

OFITECO renders **SERVICES** during all life phases of these infrastructures: design, construction and operation.

During **DESIGN**, feasibility studies and detailed designs are carried out.

During **CONSTRUCTION**, monitoring and quality control of works are accomplished, relying on our own laboratories. In addition, dam, tunnel and bridge **MONITORING, SURVEILLANCE** and **AUTOMATION** are developed.

During **OPERATION** flood routing and maintenance tasks in dams, hydrometeorological networks and canals. Besides, detailed inspections and corrective actions are carried out in dams, tunnels and viaducts.

OFITECO has a multidisciplinary **TEAM** with wide experience and specialization in their business areas; resorting when necessary to expert collaborative partnership.

OFITECO is completely established in the **SPANISH MARKET** through their offices in Madrid, Valencia, Zaragoza, Granada and Valladolid.

In addition, OFITECO is carrying out an **INTERNATIONAL BUSINESS** expansion. We have our own branch offices in Peru, Colombia, Guatemala, Algeria, Iraq and Qatar, whereas we are developing projects in Panama, Costa Rica, Uruguay, Georgia, Poland, and Saudi Arabia.

OFITECO implements a strict **MANAGEMENT SYSTEM**, including quality (UNE EN ISO 9001), environment (UNE EN ISO 14001), and safety and health at work (OHSAS 18001).

Finally, OFITECO is permanently focused on **R&D**. We have developed the **DAMDATA**, an outstanding real-time web service for remote data management in dam monitoring.
